

Product data sheet

Frame 28 mm height above surface

Reference number

LS 982 HBF WW

Frame 28 mm structure height

for horizontal and vertical installation

for LS range

This frame allows flush-mounted devices with a large installation depth to be installed in an existing flat wall box. The frame raises the device supporting frame from the wall to provide an additional 17 mm of installation depth.

Note: Ensure sufficient clearance between the device and the bottom of the flush box (8 mm clearance according to VDE)

**Thermoplastic (breakproof) high-gloss
white**

Version:
2-gang

Dimensions:
152 mm x 81 mm

Material:
thermoplastic
