

# Product data sheet

## USB 2.0

### Reference number

MA AL 1122 AN

### USB 2.0

(with supporting frame, screw fixing only)

Consider bending radius and various plug types. Ensure sufficient installation space.

### Spare part:

adapter 3 ref.-no.: MA 1000 AD 3

### Technical data

|                      |                                                                                       |
|----------------------|---------------------------------------------------------------------------------------|
| Standard:            | 2.0 High Speed                                                                        |
| Terminal:            | Type A, 180°                                                                          |
| Installation depth:  | 28 mm                                                                                 |
| Ambient temperature: | -5 ... +45 °C                                                                         |
| Installation note:   | Consider bending radius and various plug types. Ensure sufficient installation space. |

### Metal versions

#### Colour:

anthracite (aluminium lacquered)

#### Material:

aluminium lacquered

Individual colour printing possible

Individual laser engraving possible
