

Product data sheet

Smart TV socket

Reference number

MMD AL 4521 AN

Smart TV socket

(with supporting frame, screw fixing only)
cover with snap-on fixing
with inscription field 12 x 55 mm
shutter with spring
including universal modular jack socket ref.-no.: UMA-CAT6A-25 and IEC plug module for antenna cables

Consider bending radius and various plug types. Ensure sufficient installation space.

Spare part:

Transparent cover ref.-no.: M 20 NA

Technical data

Specification IEC plug module

External connection:	IEC male, IEC 60169-2
Internal connection:	F female, IEC 60169-24
Impedance:	75 Ohm
Frequency range:	5 ... 2,400 MHz
Attenuation:	0.0 dB

Installation depth not considering cables

Universal modular jack socket: 28 mm

IEC plug module: 30 mm

Use right angle plug.

Consider bending radius. Ensure sufficient installation space.

Metal versions

Colour:

anthracite (aluminium lacquered)

Material:

aluminium lacquered

-  Individual colour printing possible
-  Individual laser engraving possible
