

Product data sheet

Emergency signal

Reference number

NRS AL 0834 RM-L

Emergency signal

screw fixing only, without claws
without frame

The emergency signal can e.g. be installed outside next to the WC door or landing door. A triggered emergency call is signalled visually by a red LED and acoustically by a buzzer. Both signals can, if required, be changed from continuous light/continuous tone to flashing light/pulsing tone.

The floating relay contact (24 V / 2 A) can be used to trigger external signalling devices.

for LS range

metal colours (thermoplastic lacquered)

Colour:

aluminium
