

Product data sheet

UPS module for emergency system

Reference number

NRS AS 0834 USV

UPS module

screw fixing only, without claws
without frame
for bridging power failures
installation into deep flush box

Technical data

Input voltage:	DC 24 V from power supply (ref.-no.: NRS .. 0834 NT ..)
Output voltage in battery operation:	DC 22.8 V, $\pm 10\%$
Rated load:	130 mA in battery operation for 1 hour
Maximum load, battery-operated:	300 mA for 15 minutes
Maximum load, mains-operated:	250 mA

for AS and A ranges

Thermoplastic (breakproof) high-gloss

Colour:
ivory

Material:
thermoplastic

P Individual colour printing possible
