Кнопка с BCU – фиксированное положение –

Ссылочный номер

8471.01 LED W

KNX кнопка с BCU
– фиксированное положение –

Depending on the version of the push-button BCU – 1-gang rocker or 2-gang rocker – centre plates are used with and without indication lights.

The “upper” or “lower” rockers can be controlled with the push-button with “neutral position”, while only the “lower” rocker can be pressed with the push-button with “switch position”. The push-button BCU can only function with an application program i.e. the push-button BCU consists of the device (hardware) and the application program (software).

Функции: переключение, диммирование

Светодиодная индикация: всегда ВКЛ, всегда ВЫКЛ

Среда передачи данных KNX: TP 256

Can operate one group.

The status LED serves as orientation light or status indication.
